

**Natures Composites**  
Premium Sustainable Fencing

# Traditional Fence Pickets

Natures Composites is the new standard in fencing, giving you the traditional look of real wood, but without all the hassles of wood. Natures Composites unique formulation provides a durable, sustainable, environmentally friendly composite product that is resistant to moisture and rot, requires low maintenance, and doesn't require staining or sealing.

## About Us

Natures Composites manufacturing plant and main office are located in Torrington, Wyoming. Natures Composites was created in 2010 and has been committed to providing sustainable, durable, composite fencing materials.

Natures Composites products are formulated using simple components, wheat straw and HDPE plastic, with the goal in mind to reduce unnecessary waste and utilize sustainable components.

Natures Composites sources wheat straw from American farmers, while also providing jobs in Wyoming.

**Made in the USA**

# Traditional Fence Pickets

## Environmentally Friendly

Natures Composites products are composed of Wheat Straw and HDPE Plastic.

- Wheat Straw is an annually renewable resource, that is a byproduct of Wheat production.
- HDPE Plastic is an environmentally stable product that is long lasting, recyclable, and considered to be a low-hazard plastic. Natures Composites use as much recycled HDPE as available.
- To offset waste, Natures Composites products are upcycled when product does not meet quality standards.

## Low Maintenance

Natures Composites products are engineered to have a textured finish with a non-reflective surface that requires minimal maintenance, and no staining or painting.

## Durable

Natures Composites products are resistant to moisture and rot. Will not splinter or crack, making them Kid and Animal safe.

10-Year Warranty on all Natures Composites Traditional Fence Pickets.

## Ease of Use

Natures Composites products have the workability of wood without the worries.

- Can be trimmed without compromising the integrity of the picket.
- Pickets cut and screw like wood.
- Color goes all the way through the board.
